

Buy a prescription prepayment

Save money on NHS prescriptions by prepaying for them.

You can pay a set price for prescriptions for 3 or 12 months, no matter how many you need.

A prescription costs £8.60 per item, but a prescription prepayment costs:

- £29.10 for 3 months
- £104 for 12 months (or 10 Direct Debit instalments of £10.40)

Proof of prepayment

You can start collecting prescriptions straight away. You will need to give pharmacy staff the following proof:

- prepayment number
- start date
- end date

We give you these at the end of this service. We will also text and email them to you. We can post proof if these options are not available.

You do not need a plastic card.

We will match the information you tell us with your prescriptions.
