

Prepay for NHS prescriptions

Save money on NHS prescriptions by prepaying for them.

You can pay a set price for prescriptions for 3 or 12 months, no matter how many you need.

A prescription costs £8.60 per item, but prepaying for an unlimited number of prescriptions is:

- £29.10 for 3 months
- £104 for 12 months (or 10 Direct Debit instalments of £10.40)

How it works

At the end of this service, or by text and email, we give you:

- a prepayment number
- a start date
- an end date

You can use these to collect prescriptions straight away, if your start date is today or earlier.

Collecting prescriptions

Tick box 'F' on the back of your prescription.

Pharmacy staff ask for prepayment details. If you do not have them with you, they tick 'Evidence not seen' on the prescription. They will not charge you.

We prevent fraud by matching prepayment details on our database with prescriptions.

Prepay for NHS prescriptions

Would you like your prepayment details sent by text and email?

We can send your prepayment details by text and email straight away. We will send you a:

- prepayment number
- start date
- end date
- reminder before it ends

We do not send out plastic cards any more. They are not required for collecting prescriptions. They are costly to the NHS and the environment.
