

Prescription Prepayments

You can prepay the NHS for your prescriptions which may make them cheaper.

You can cover your prescriptions for 3 or 12 months. This includes all your prescriptions for that period, no matter how many you need.

A prescription costs £8.40 per item, but a prescription prepayment costs:

- £29.10 for 3 months
- £104 for 12 months

If you are going to buy 4 or more prescriptions in 3 months, or 13 or more prescriptions in 12 months, it may be cheaper to buy a prescription prepayment.

You can pay in 10 monthly instalments if you buy a 12 month prepayment.

It takes about 5 minutes to complete and you can start collecting prescriptions straight away. You will need your bank or payment card details depending on how you want to pay.
